

# Tear Drop

This project is perfect for using left over thread from larger projects. It makes a nice enhancer for a necklace. Dangle a bead in the center for extra elegance. Or you can make 2 of them for a pair of earrings.

This pattern calls for 7 pairs. I used 5 pairs of Tanne size 50 thread in dark pink with 2 pairs of multi-colored metallic filament thread. The finished size is 3.2 cm(1.25 inches) tall. Hang 3 pairs at top pin **A** and work in the remaining pairs at 2nd and 3rd pin. "Four About The Pin" (CTCT), pin to the right of both edge pairs and cloth stitch (CTC) across the row. After the first 4 passes, add a twist of the worker pair in between the 2 center metallic pairs for 3 passes. Then 2 twists for the next 3 passes. Then 3 twists for the remaining passes to the end.
