

Y2K Bracelet

To welcome the New Millennium in, I thought it would be appropriate to commemorate it with a 2000 motif. You can use it as a bracelet as I have done here by adding a beaded extension to wrap around the wrist. And a drop pearl in the middle. Or you can use the motif for a bookmark or whatever you wish. I chose DMC silver thread and navy iridescent beads (the colors, silver and navy, have been chosen as the Millennium colors). Not sure who made that decision. HAH! Hope you enjoy this motif and have a Happy New Year!!!!
